Patron: The Rt Hon The Lord Dulverton

9th March 2026

Dear Sirs,

REDEVELOPMENT OF THE MILL, DULVERTON - EXM/26/041/FULL

We have studied the application for the redevelopment of The Mill, and wish to offer our support.

The proposal presents a good reuse example of a now redundant building which is currently a negative asset to the town, it will preserve a historic structure and offer valuable housing. The design is both sensible and makes full use of the existing volume with minimal compromise to the existing fabric.

We appreciate that the development cost and viability of such conservation projects preclude the provision of affordable housing. The access and vehicle turning is very tight and the parking provision is clearly inadequate, it could possibly be improved (space 1 is unviable) but this is no exception to Dulverton and should not in our opinion be a reason to refuse this application.

Overall we offer our full support.
